

Seal 62 Pro S

Product information

With full independent control over pressure and speed, the SEAL 62 Pro S is ideal for both new and experienced image finishers who require a highly capable laminator but have no need for hot encapsulation. The 62 Pro S is based on the widely acclaimed 62 Pro D and feature the same high pressure nip system. This delivers superb results whatever the application required.

Features

- Based on the existing 62 Pro D platform giving proven performance
- Adjustable pressure and speed settings for maximum versatility
- 2.5 N/mm line pressure for superior cold lamination
- 40 mm nip opening to cover a wide range of substrates
- 1600 mm working width to cope with a wide range of media
- 2 combi shafts (bottom) to maximize processable applications
- Variable roller technology for better processing of soft substrates
- Maximum speed of 6m/min for increased production capacity
- Manual nip adjustment for precise operation
- Ergonomic control panel for ease of use
- Swing out supply shafts for easy loading
- Auto grip supply shafts for user friendly material loading
- Auto grip re-wind shafts for more effective take up of release liners
- Outboard brakes for greater control of material unwind
- Optional new in-feed table for increased ease of use and flexibility
- Foot switch for hands free operation
